BSI-IGZ-0447-2021

ISO 27001 Certificate in compliance with IT-Grundschutz

Headquarters in Warschau (PL) and data center Warschau and Frankfurt a. M.

for CloudFerro Sp. z o.o.

valid until: 14th June 2024*

The CODE-DE cloud enables access and processing of remote sensing data with a focus on Germany. Data is created as a part of the Copernicus program. Over 18 PB (petabytes) of data is currently available, including the Sentinel and Landsat satellite missions, which can be processed directly thanks to cloud computing. The platform was developed by the Warsaw company CloudFerro on behalf of DLR and has also been operated by CloudFerro since 01.04.2020.

The subject of certification stated above was audited by Franz Obermayer, certified Auditor for ISO 27001 audits in compliance with IT-Grundschutz, in accordance with the certification scheme of the German Federal Office for Information Security (BSI). The conclusions drawn by the certified Auditor and included in the audit report correspond with the evidence given.

The Certification in accordance with ISO 27001 in compliance with IT-Grundschutz (BSI-Standard 200-2: IT-Grundschutz-Methodik) as confirmed by the Certificate includes the control objectives and controls included in Annex A of ISO/IEC 27001 and the corresponding implementation advice and guidance on the best practice from ISO/IEC 27002. This Certificate is not a recommendation of the subject of certification by the BSI. The BSI neither implies nor explicitly states any warranty for the subject of certification.

This Certificate applies to the stated subject of certification exclusively and is only valid in connection with the complete certification report.

Further information concerning the subject of certification and the audit process are contained in the annex to the certificate.

This document is the english translation of „ISO 27001-Zertifikat auf der Basis von IT-Grundschutz BSI-IGZ-0447-2021 für CloudFerro Sp. z o.o.“. In cases of doubt the German version shall prevail.

Bonn, 15th June 2021

For the Federal Office for Information Security (BSI)

Sandro Amendola
Head of Division

* Provided that the surveillance audits performed annually from 15th June 2021 proved positive.
